SETTING UP SELF-DIRECTED IRAS FOR BANKS USING STOCKTRACK

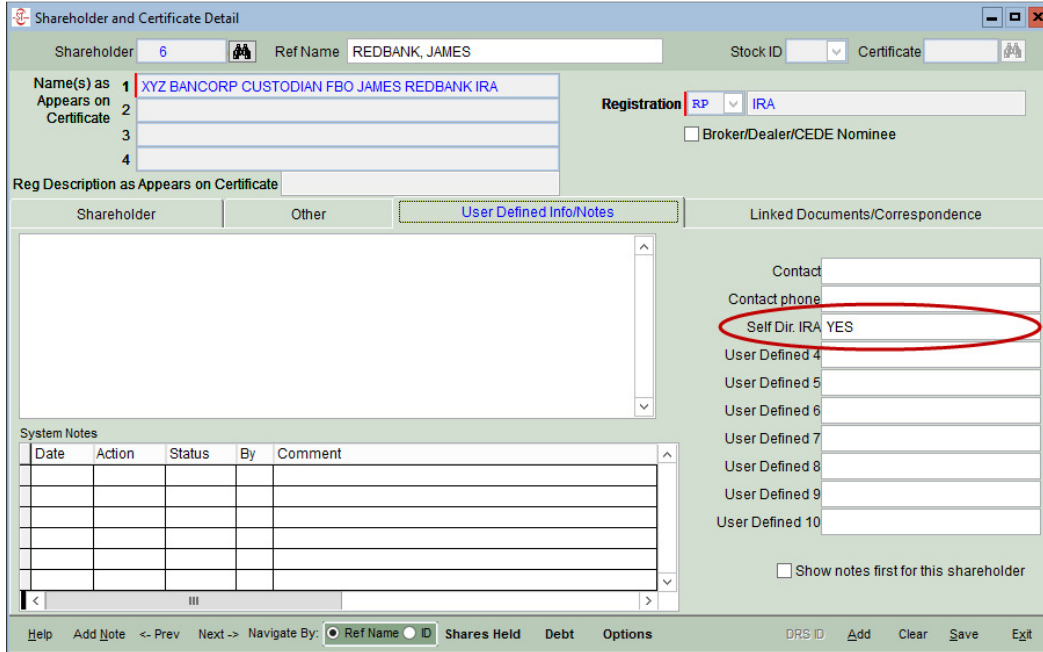

StockTrack is a complete shareholder management software solution used by community banks nationwide. It provides for transfer and issuance of shares; cash dividends; stock splits; stock dividends; proxy voting; stock options; email and mailings to shareholders; flexible reporting and more.

If your bank is acting as custodian for *Self-Directed IRAs* which will hold shares of your bank, the account is set up in **StockTrack** as a Registration type of IRA.

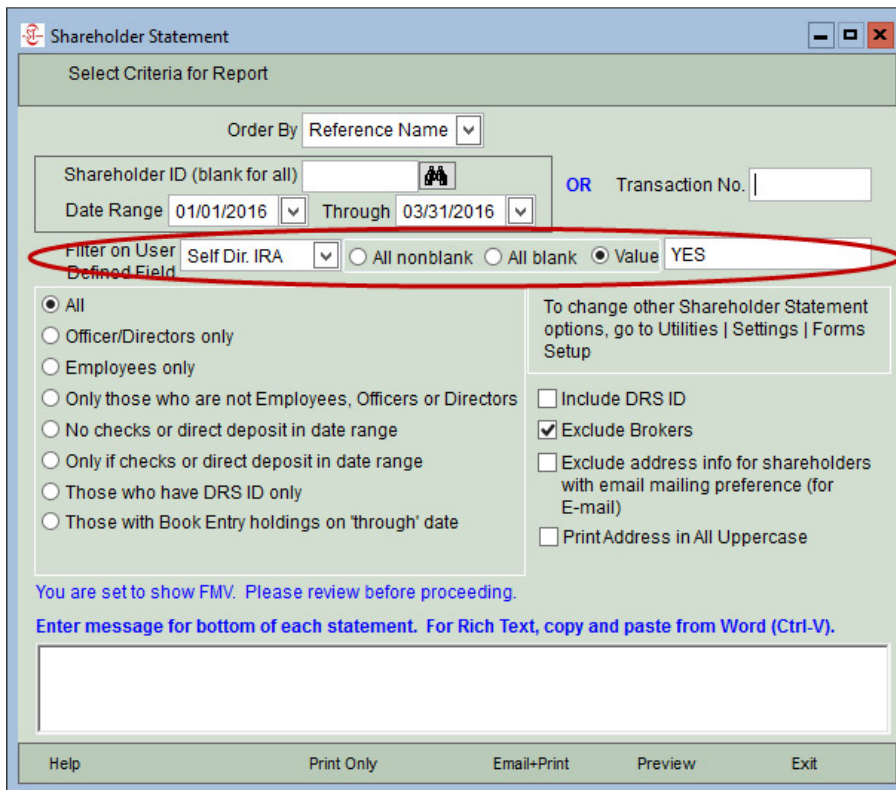

The address of record, Address 1, should be set to the Custodian address. If you wish to have other mailings go directly to the beneficiary, you can enter the beneficiary's address as Address 2. All cash disbursements such as dividend payments should be sent to the Custodian's account either as a check or via direct deposit.

To simplify reporting and sending statements to these IRA beneficiaries, you can designate a User Defined Field on the *Maintain | Captions for User Defined Fields* screen.

You can then mark those shareholder accounts that you wish to track as Self Directed IRAs on the *Shareholder | User Defined Info...* tab.

If you want to send Shareholder Statements just to those shareholders with Self Directed IRAs, you can select to send only for those shareholders set as Self Directed IRAs.
